BWT BatBrown

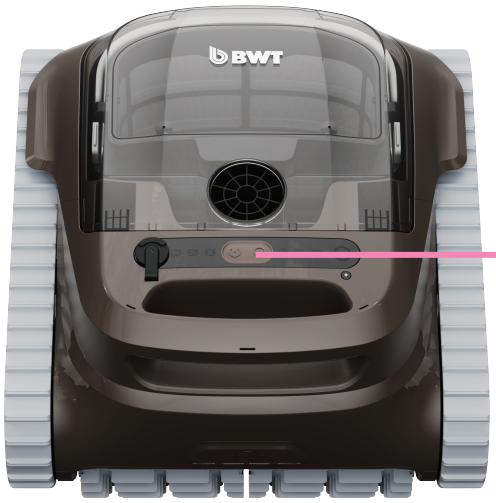
Smart, Fast, Cordless

For You and Planet Blue.

BWT
BEST WATER TECHNOLOGY

BWT engineering at its finest.

Experience cordless freedom with our new generation, quick-charge, battery operated swimming pool cleaner : the BWT BatBrown.



Smart Mode: Adaptive trajectories, Powerful Suction

The **BatBrown** pool cleaning robot boasts adaptive trajectory technology and powerful suction power, thanks to **advanced algorithms and ultrasonic sensors.** Equipped with **state-of-the-art** vacuum technology capable of vacuuming up to **4,000 GPH**, it adapts its suction power according to the amount of debris in the pool, therefore optimizing its battery charge.

Superior Filtration

BatBrown's **double filtration system** including a high-tech filter and a fine filter, ensures impeccable water clarity and is designed to handle a wide range of debris. The basket features a **flap system** that prevents debris from escaping as the robot is lifted from the pool.

SmartPark Retrieval System

Benefit from hassle-free robot retrieval with the **SmartPark** function. Thanks to an ultrasonic sensor, the **BatBrown** parks itself by a pool wall at the end of each cleaning cycle. With the included hook, you can easily lift the robot out of the water.

Quick Charge Technology

The **BatBrown** is designed to get back to work faster than ever. Thanks to advanced **Quick Charge Technology,** the powerful **BatBrown** fully charges in just 3.5 hours — significantly faster than the competition. With one charge, you will get up to 4 hours of cleaning.
