

3" JUMBO TABS

Sanitizer

Stabilized Chlorinating Tablets for Swimming Pools

- Controls bacteria and algae
- Highly concentrated
- Protected from sunlight

Product Representation

Active Ingredient:	
Trichloro-s-triazinetriene	99%
Other Ingredients:	
Total	100%
(Available Chlorine — 90%)	

Keep Out of Reach of Children
DANGER
 See First Aid Statement and Additional Precautions on Back Panel
 LPM 12440 — Net Wt. 35 Lbs. (15.9 kg)

FIRST AID	
If in Eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If Inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
If Swallowed	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If on Skin or Clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For medical emergencies, call the Poison Control Center at 1-800-222-1222 .	
NOTE TO PHYSICIAN	
Probable mucosal damage may contraindicate the use of gastric lavage.	

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or clothing. Do not breathe dust, vapor or spray mist. Wear goggles or safety glasses, rubber gloves and protective clothing when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms.

PHYSICAL OR CHEMICAL HAZARD: Strong oxidizing agent. Do not mix with other chemicals. **Never add water to product.** Always add product to large quantities of water. Use only clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic material or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire or explosion.

Avoid contact with flaming or burning material, such as a lighted cigarette. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open and well-ventilated area and flood with large amounts of water.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE

AUTOMATIC CHLORINATORS AND FLOATING CHLORINATORS: Add Leslie's Swimming Pool Supplies 3" Jumbo Tabs according to the directions on your chlorinator.

CARTRIDGE CHLORINATORS: Remove top of cartridge and refill with Leslie's Swimming Pool Supplies 3" Jumbo Tabs. Follow the directions on the cartridge. **Important:** Allow the empty cartridge to dry before refilling.

DO NOT ADD LESLIE'S SWIMMING POOL SUPPLIES 3" JUMBO TABS DIRECTLY INTO THE POOL OR THE POOL SKIMMER AS DAMAGE WILL OCCUR.

START-UP: 1. Adjust the pH to 7.2-7.8 (ideal pH is 7.4-7.6), the Total Alkalinity to 80-120 ppm depending on type of primary sanitizer used (80-100 ppm for sodium hypochlorite, calcium hypochlorite or lithium hypochlorite and 100-120 ppm for dichlor, trichlor or bromine tablets) and Calcium Hardness to 200 ppm minimum.

2. Superchlorinate with Leslie's Swimming Pool Supplies Power Powder Plus, Power Powder Pro or Chlor Brite to attain a Free Available Chlorine (FAC) level of 1-4 ppm. Follow use directions on those product labels.

3. The next day, stabilize your pool using Leslie's Swimming Pool Supplies Conditioner. Follow label directions.

ROUTINE USE: The amount of Leslie's Swimming Pool Supplies 3" Jumbo Tabs that must be added on a routine basis will vary with individual pool conditions such as bather load, water temperature, organic contaminants and other conditions. Normally, one tablet per 10,000 gallons of pool water will be needed every week. Maintain a Free Available Chlorine (FAC) level of 1-4 ppm at all times. It may be necessary to increase the chlorinator feed rate or superchlorinate during heavy periods of use to maintain this FAC level. Maintain the pH between 7.2-7.8 (ideal pH is 7.4-7.6), the Total Alkalinity between 80-120 ppm depending on type of primary sanitizer used (80-100 ppm for sodium hypochlorite, calcium

hypochlorite or lithium hypochlorite and 100-120 ppm for dichlor, trichlor or bromine tablets) and Calcium Hardness between 200-400 ppm. Test regularly with a reliable test kit and make the necessary adjustments using the appropriate Leslie's pool care product. To remove excessive organic materials and keep the water sparkling clear, superchlorinate weekly with your preferred Leslie's shock product when water temperatures are above 80°F. Follow use directions on those product labels. You may only need to superchlorinate every other week when water temperatures are below 80°F. Reentry into treated swimming pools is prohibited above levels of 4 ppm of chlorine due to risk of body injury.

ALGAE CONTROL: In case of algae, superchlorinate with Leslie's Swimming Pool Supplies Power Powder Plus according to the use directions on that product label. Pool should not be entered until the chlorine level is 1-4 ppm.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal. **STORAGE:** Keep product dry in its original, tightly closed container when not in use. Store container in a cool, dry, well-ventilated area away from heat or open flame. Storage area should be locked and inaccessible to children. **PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. **CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) empty container then offer for recycling, if available, or discard in trash.
