

# Standard Mesh

Our **Standard Mesh** covers feature a porous mesh that allows water to drain through while keeping debris out.

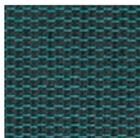

Available in a variety of the most popular colors, these covers compliment the appearance of a pool during any off-season.

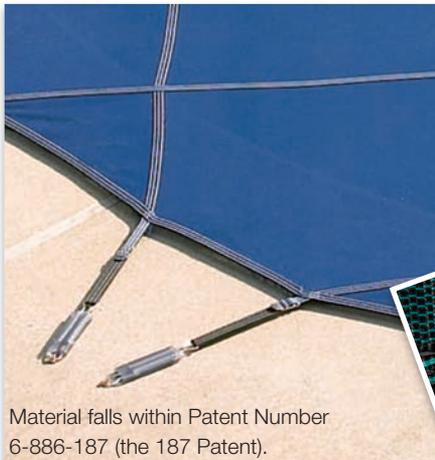

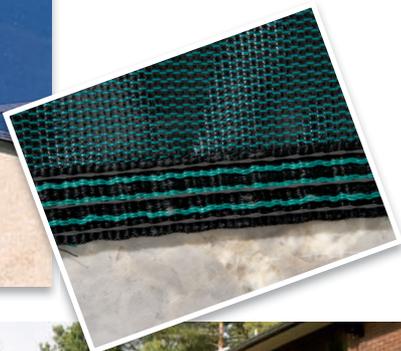

# BlocMesh 99

Specially designed to block up to 99% of sunlight penetration, **BlocMesh 99** features our revolutionary super tight weave.

Combining the benefits of a water draining mesh cover with the effectiveness and cleanliness of a solid cover, BlocMesh 99 is a superior and proven performer.

Material falls within Patent Number 6-886-187 (the 187 Patent).

\*Material colors may appear different than shown.

4 Deck-Lock Systems

**BLOC MESH 99™**  
For maximum  
sun block.

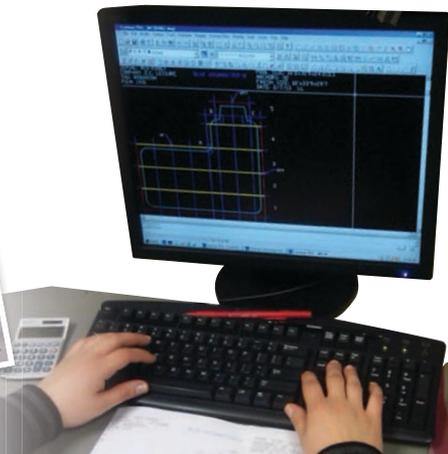

# AquaMaster

The Yard Guard **Aqua Master** cover is made with the same detail to quality and service as our mesh covers

Combining light weight and strength, our solid safety covers are 50% lighter and 70% stronger than conventional solid vinyl covers. Constructed of tough, non-porous material, these covers block sunlight and provide enduring stain and fade resistance. AquaMaster is available with a mesh drain panel or a automatic pump.

Available in either blue, green, tan or grey the solid cover will compliment any backyard

The location of the centre drain panel is determined by our computer system to maximize the flow of surface water.
