Protégé SF

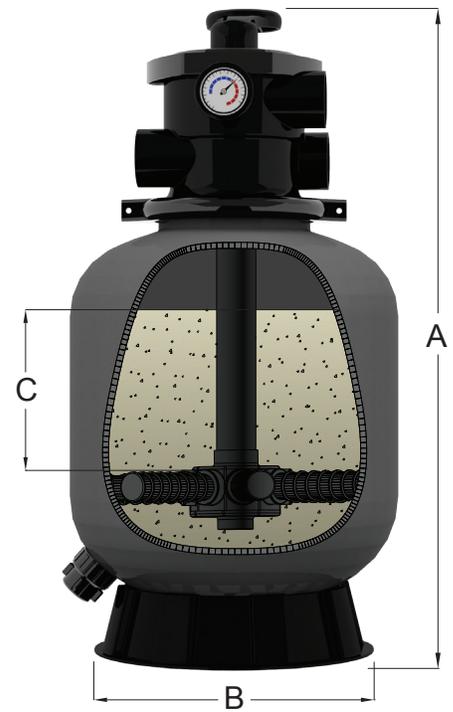

About the Protégé SF

The Protégé SF above ground pool filter is Eco-Friendly. It requires no chemicals, creates little waste, is energy efficient, as well as sustainable. Our Protégé SF uses sand to filter out debris and impurities. It is equipped with a backwash setting so particles will not get trapped in the filter.

The Protégé SF is built with durable, UV-resistant construction. The SF filtration system comes equipped with a PVC union connection and six-way, multi-port valve, for greater installation flexibility.

We've designed the Protégé SF to be reliable, durable and easy to operate. So you'll have more time to enjoy your pool with family and friends.

Product Specifications

Model	Dimensions - inches (mm)			Valve Port Size inches	Silica 16/30* Weight lbs. (kg)
	Height A	Diameter B	Silica Height C		
RPSF14	28.6 (726)	13.8 (350)	6.3 (160)	1.5	44 (20)
RPSF16	29.8 (757)	15.7 (400)	6.9 (175)	1.5	77 (35)
RPSF18	32.0 (814)	17.7 (449)	8.3 (210)	1.5	99 (45)
RPSF21	33.3 (845)	20.7 (527)	9.3 (235)	1.5	209 (85)
RPSF25	37.4 (950)	24.7 (627)	11.8 (300)	1.5	319 (145)
RPSF28	40.2 (1020)	27.7 (703)	13.0 (330)	1.5	462 (210)
