ABOVE GROUND POOL FILTERS & PUMPS

Protégé CFP

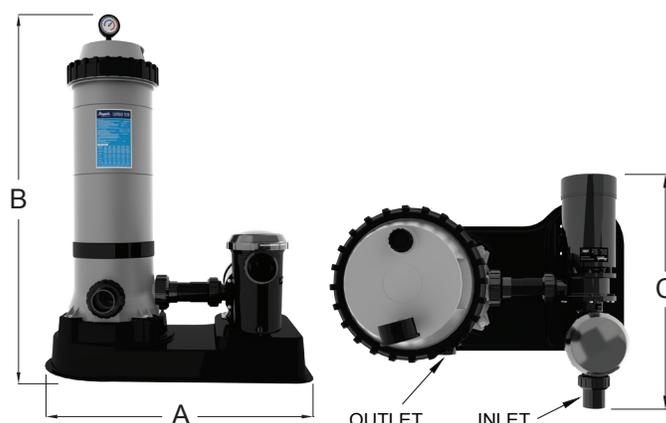

About the Protégé CFP

Don't miss a day of pool fun with our Protégé CFP system. The system includes our AGP above ground pool pump and cartridge filter. The CFP system comes pre-piped making installation simple and quick.

The Protégé AGP pool pump and cartridge filter system remove small particles and unwanted debris. Together they keep your pool sparkling clean and free of unwanted deposits.

The cartridge filter is built with UV-Resistant construction. It is equipped with a strong, easy-open ring lock lid, allowing for effortless cleaning and maintenance.

The Protégé CFP was designed for easy setup, operation and maintenance.

Product Specifications

Model	Dimensions - inches (mm)			Pipe Size inches	Tank Diameter inches	Design Flow GPM (LPM)	Filter Area ft ² (m ²)	Pump Model	Power (HP)	Speed
