DETECTION SYSTEMS

# CORAL MANTA

THE FIRST COMPUTER-VISION  
**DROWNING DETECTION SYSTEM**  
FOR PRIVATE POOLS

[WWW.CORALDROWNINGDETECTION.COM](http://WWW.CORALDROWNINGDETECTION.COM)

## NO OTHER SYSTEM PROVIDES SUCH A COMPREHENSIVE LEVEL OF PROTECTION

Introducing Coral Manta - The world's first system providing 24/7 pool protection. Coral Manta uses a unique built-in underwater video camera and advanced artificial intelligence technology to constantly analyze the pool in real time. Whenever it identifies a near drowning event it instantly generates an alarm - at home and on your phone.

## SOLAR POWERED - JUST PLUG AND PLAY

Simply secure to any corner of the pool, plug in the home unit and pair your phone. Coral Manta will work instantly and constantly using solar power, no power cords needed.

## 24/7 PEACE OF MIND

You never need to worry about forgetting to activate or deactivate, covering or uncovering, locking or unlocking anything - Coral Manta works non-stop, day and night and alerts instantly - at home and on your phone.
