

OPTIFLO®

ABOVEGROUND POOL PUMP

Reliability and versatility for aboveground pools.

The OptiFlo Pump is specially designed to deliver dependable, high-efficiency flow performance and easy maintenance for aboveground pool owners. Our hydraulic design is extremely efficient and delivers the ideal flow and pressure for aboveground pools. And, we've packed OptiFlo Pumps with user-friendly convenience features, such as see-through lids for easy inspection and large strainer baskets that minimize the time you need to spend removing dirt and debris.

When you do need to access the basket, the Cam and Ramp™ Lid comes off and locks back in place with a simple quarter-turn.

OPTIFLO® ABOVEGROUND POOL PUMP

**Economical to own,
simple to service.**

The OptiFlo Pump brings proven performance and durability from Pentair to aboveground pools. We've designed it to be easy to operate and maintain, as well as simple to service. And like all Pentair pumps, it's efficient and provides long, trouble-free life.

Performance Curves

KEY FEATURES

Cam and Ramp™ Lid

Locks in place with a quarter-turn.

See-through lid

Permits easy inspection of the large strainer basket which extends time between cleanings.

Variety of models available

Single speeds with on/off switch, two speeds, multiple horsepower ratings and cord options to meet your exact requirements.

Fiberglass-reinforced pump components

For superior strength and long life.

Easy-access discharge port

Converts between horizontal and vertical for fast, in-field service, minimizing labor expense.

Volute and impeller

Provide excellent pressure performance across a wide range of flow rates.

Metal motor base

For strength, durability and years of service.

Easy-to-remove drain plugs

For fast winterization.

ENERGY STAR certified models available

These select two-speed models are ENERGY STAR certified 347990, 347991, 340070 and 340071.

The ENERGY STAR® Certified OptiFlo Pump from Pentair meets strict energy efficiency criteria set by the U.S. Environmental Protection Agency and the U.S. Department of Energy. This pump saves money, reduces energy use and protects the environment.
