

For a clean and luminous pool!

BWT ROBOTIC POOL CLEANERS PROVIDE IMPECCABLE CLEANING, CLEAR WATER AND IMMACULATE SURFACES.

*Excellence
inside!*

Connected

The BWT RC60 APP model features a Bluetooth App. Using the BWT RC app available for download free of charge from the App Store or Google Play, control is at your finger tips! You can start and stop your RC60 APP remotely, and freely navigate your pool cleaner to problem areas.

Compact, streamlined, energy efficient design

The BWT RC60 APP is a compact robotic pool cleaner designed to navigate tight spaces created by forgotten toys on the pool floor and other obstacles. Its hydrodynamic design reduces drag so less power is needed to drive it through the water. A real energy saving.

Top Access filter cartridges

BWT robotic pool cleaners are intuitive and easy to use. With the touch of a button the RC60 APP gets to work all by itself. The transparent filter lid makes it easy to see if the filter needs to be washed when you remove the robotic cleaner from the pool, no need to remove the filter cartridge from its housing. Simply lift a lever to release the filter and pull the filter cartridge out of the cleaner to wash it, all without getting your hands dirty.

Powerful suction

BWT robotic cleaners feature the most powerful suction of any robot on the market. They can significantly increase their suction power through precise adjustment of the height of intake valves.

The closer they are to the surface being vacuumed, the more powerful the suction. Suction can be adjusted to efficiently capture the type of debris to be picked up. Thus, close to a beach for example, the intake valves can be set down low to effortlessly remove every grain of sand.

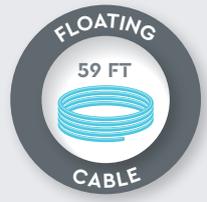

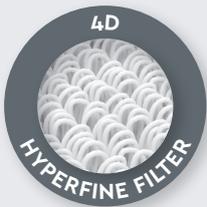

The finest filtration performance on the market

The RC60 APP is fitted with the state of art 4D hyperfine filter. This filter consists of elastic 4D loops that trap even the tiniest particles. Their vibrating motion prevents clogging to maximise water throughput and the suction power. Your pool is BWT clean!

Technical Specifications

Pool size	For pools up to 50 ft (any shape and surface finish)
Cleaning type	Floor, walls and waterline
Duration of the cleaning cycle	1.5, 2 or 2.5 hours
Remote control	Smartphone App
Filter type	4D hyperfine filter with transparent lid
Filter access	Top access
Full filter indicator	Yes
Brush type	4 PVC scrubbing wheels
Navigation system	AquaSmart
Gyroscope	Yes
Power supply	Jupiter Bluetooth
Power consumption	< 150 Watt
Platform	2 drives with Breezer technology
Suction flow rate	88 gpm / h
Cable length	60 ft
Anti-tangle swivel	Yes
Adjustable intake valves	Yes, for better suction
External timer capability	Yes, external WIFI
Under water led lighting	Blue
Dimensions (L x W x H)	21.7" x 20.3" x 20.2"
Weight	20 lbs
Storage accessory	Premium Caddy
Warranty	3 years

A world made for you!

EXCELLENCE, INTELLIGENCE, INNOVATION

The BWT world is made for you, and its robotic pool cleaners are designed with you in mind.
Don't hesitate, step into an exceptional world.
