

Polaris Turbo Turtle

For all aboveground pools. Vacuums and sweeps.

For those who've figured out it's more fun to swim in a pool than clean it.

A happy combination of automatic pool cleaner and pool decoration, the Polaris Turbo Turtle® is suitable for all above-ground pools up to 5-feet deep.

features

- Operates with pumps and filtration systems normally found on aboveground pools and vacuums the bottom and sweeps the sides in three hours or less.
- Patented jet sweep assembly blows water against the pool wall to loosen debris in hard-to-reach places and then sweeps it into an easy-to-remove filter bag.
- Powered by the pressure of clean water returning to your pool, leaving both the filter and skimmer free to eliminate contaminants.
- Unique filter bag removes debris before it reaches your pump basket or filter, prolonging the life of your filtration system.

Polaris WaterStars™

accessories

Polaris SpaWand®

Our SpaWand is a simple, effective hand-held device that quickly cleans your spa, pool steps, swimouts and other small bodies of water without hoses or hookups.

Polaris WaterStars™

Add beauty and drama to your pool with a Polaris WaterStars fountain.
