

WHY BEAR THE COLD?

Let the Super Solar Bear heat your above-ground swimming pool... with FREE energy from the sun.

Turn your polar pool into a solar pool with FAFCO's innovative Super Solar Bear system.

Forget the cold as The Super Solar Bear extends your swim season by heating your pool to a warm, comfortable temperature from Spring through Fall.

One attractive and lightweight panel sets up anywhere your pool is and starts heating immediately.

HEATS ALL SIZE ABOVE-GROUND POOLS FOR A LONGER, MORE COMFORTABLE SWIMMING SEASON.

"No one likes to swim in a cold pool!"

– Freeman A. Ford (Founder)

- ✓ Raises water temperature at least 10 degrees
- ✓ Better than a solar blanket – ACTIVE heating of your water!
- ✓ Can also cool your above-ground swimming pool – run at night during the hottest part of summer
- ✓ Works with any swimming pool pump

RELAX. IT'S BUILT BY FAFCO!

- ✓ FAFCO pioneered the solar industry in 1969 and has been the leader in solar heating for swimming pools for over 50 years!
- ✓ Millions of reliable FAFCO heat exchangers are in use and the number is growing every day.
- ✓ The Super Solar Bear's patented design has the highest thermal performance rating in the industry – more heat for your SSS.
- ✓ ALL panels are manufactured entirely by FAFCO in our state-of-the-art factory in Chico, California, USA.

THE FAFCO® SUPER SOLAR BEAR

The solar essentials at a bear bones price!

WARMS YOUR POOL WITHOUT BURNING YOUR WALLET!

SET-UP YOUR SUPER SOLAR BEAR ANYWHERE THE SUN SHINES!

Ground mount or rack mount only!

HOW BIG OF A SYSTEM DO YOU NEED?

POOL SHAPE & SIZE	# OF SYSTEMS	POOL SHAPE & SIZE	# OF SYSTEMS
12' Round	1	27' (or bigger) Round	1
15' Round	1	12' x 24' Oval	1
18' Round	1	15' x 30' Oval	1
21' Round	1	16' x 32' (or bigger) Oval	1
24' Round	1		

For extra heat, you can always add (1) additional Super Solar Bear with 09976 Add On Kit, sold separately.

(A maximum of 2 systems can be joined together.)

Please see the installation manual for recommended configuration.

www.fafco.com/downloads

INSTALL IT IN 30 MINUTES OR LESS AS EASY AS...

- 1 Unroll Super Solar Bear solar panel.
- 2 Connect hose from your swimming pool filter outlet to system inlet.
- 3 Connect second hose from system outlet to your swimming pool inlet and you're done!

Roll up and store when
your swim season is over.

HERE'S HOW IT WORKS:

Your swimming pool pump sends filtered water through the FAFCO Super Solar Bear solar panel. It transfers the sun's FREE heat to the water circulating through the channels inside and returns warm water to your above-ground swimming pool.

THE BEAR FACTS

QUESTION: Where can I put the Super Solar Bear system for my above-ground pool?

ANSWER: For the best result, anywhere that the panel will be in full sun for most of the day. The panel should face South if possible but West is next best. Lay it on grass, gravel, landscaping mulch or the like, or mount it on a platform, rack or deck. Mounting at a 20 to 45 degree angle to the ground will help maximize efficiency. It should NOT be mounted on a roof.

QUESTION: Will it heat my above-ground swimming pool?

ANSWER: Of course! In general, this will heat a 24' round above-ground pool at least 10 degrees Fahrenheit warmer during the swim season than it would be otherwise.

QUESTION: Is FAFCO solar heat better than a solar blanket?

ANSWER: Without a doubt! Solar blankets do not heat your swimming pool. Just like the lid for a hot cup of coffee, a solar blanket covers the top of the pool and keeps the heat in but you need a FAFCO Solar System to actually generate the heat. Active solar heating!

QUESTION: What's in the box?

ANSWER: Everything you need!

QUESTION: Will the Super Solar Bear work with my equipment?

ANSWER: Absolutely! The FAFCO Super Solar Bear system is designed to work with any common above-ground swimming pool pump.
