

ULTRA

CuLator[®] METAL ELIMINATOR & STAIN PREVENTER

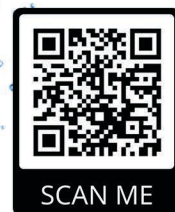

CuLator Ultra 4.0 is patented and perfect for maintaining a metal-free pool. Each Ultra removes 4.0 ppm total dissolved metals from 20,000 gallons (and traps them inside the bag). CuLator Ultra 4.0 can be used for pool start-ups, during pool stain treatments and for seasonal maintenance.

Not only does CuLator remove metals, the contents change color and identify the metals removed!

- Removes, traps and eliminates 4.0 ppm stain-causing metals (staining begins at 0.3 ppm)
- Treats 20,000 gallons
- Includes protective plastic GatorEgg
- Works in fresh and salt water
- Works 1-4 months depending on metal levels
- No phosphates and non-toxic

Easy to use – just place into pump basket

*Use in pump basket

CUL-ULT-1

**Saves Time & Money
Keeps Surfaces Looking New**

Recommended Uses:

- Pool start-ups
- Pools filled (or topped off) with well and city water
- Pools with major metal issues
- Large, residential and commercial pools
- During and after stain treatment
- To remove copper after a heater core "blow-out"
- Season-long treatment for metal-free pool water
