Pool & Patio Protection

NO-SLIP

NON-SLIP TREATMENTS

NANO FORMULATION TECHNOLOGY

- New Micron Engraving Technology
- Increases the Coefficient of Friction on Wet Surfaces
- Safe and Easy To Use

Environmentally Safe! Non-Toxic!

NO SLIP Anti-Slip Tub & Tile Surface Treatment- is a new water based micron engraving technology that when used increases the coefficient of friction on wet bathtubs, shower floors, ceramic and porcelain tiles, natural stone and concrete. Apply anywhere there's a possibility of a slip fall accident. When wet, the treated surfaces will exceed ADA, ASTM, OSHA and DIN slip fall safety codes in less than ten minutes greatly reducing the chance of slips/falls. NO SLIP is safe and easy to use with no visual surface changes and provides protection for children, adults and senior citizens against dangerous falls.

100% Satisfaction Guaranteed on ALL LayorCare Products!
