

# POWER POWDER<sup>®</sup> PRO 73

**Shock**

## Concentrated Chlorinating Agent

- 73% active ingredient
- Quick dissolving
- Kills bacteria, controls algae and destroys organic contaminants

<b>Active Ingredient:</b>	
Calcium Hypochlorite	73%
<b>Other Ingredients:</b>	27%
Total	100%

KEEP OUT OF REACH OF CHILDREN  
**DANGER**

Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Highly Corrosive. Causes skin and eye damage. May be fatal if swallowed.

Read all precautionary statements and first aid before use. See back panel for Precautionary and First Aid Statements.

FIRST AID	
<b>If in Eyes</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>If on Skin or Clothing</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>If Swallowed</b>	<ul style="list-style-type: none"> <li>• Call a poison control center or doctor immediately for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to do so by a poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
<b>If Inhaled</b>	<ul style="list-style-type: none"> <li>• Move person to fresh air.</li> <li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.</li> <li>• Call a poison control center or doctor for further treatment advice.</li> </ul>
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
NOTE TO PHYSICIAN	
Probable mucosal damage may contraindicate the use of gastric lavage. <b>IN CASE OF EMERGENCY CALL: 1-800-654-6911</b>	

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER: Highly corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Irritating to nose and throat.**

- Open in a well-ventilated area. Avoid breathing dust and fumes.
- Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves when handling. For additional protection of skin, wear long sleeves and long pants.
- Remove and wash contaminated clothing before reuse. Only use utensils that are thoroughly clean and dry. Irritating to nose and throat. Avoid breathing dust and fumes.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or going to restroom.

**PHYSICAL AND CHEMICAL HAZARDS: If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water.**

- Do not allow to become wet or damp before use.
- Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from this product.

**Use only clean dry equipment to dispense this product.**

- Do not use this product in a container or dispensing device that has been used with any other product.
- **Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases.**
- Store in a cool, dry, well-ventilated area.
- Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS:	
This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.	
DIRECTIONS FOR USE:	
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.	
READ ALL PRECAUTIONARY STATEMENTS BEFORE USE	
SWIMMING POOLS	
<b>WHY YOU SHOULD USE THIS PRODUCT:</b> This is a highly effective, multi-purpose product that sanitizes, clarifies, prevents algae and shock treats your pool. It is convenient, easy to use, and won't over-stabilize your pool. Additional shocking to keep water clean and clear is recommended after rain and heavy winds, high number of swimmers, increased water temperature, and/or increased frequency of pool usage.	
<b>HOW TO USE:</b> Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. Use a clean, dry scoop to measure this product. Do not use the scoop for any other purpose. If any granules settle to the bottom of the pool, use brush to disperse.	
<b>WATER BALANCE:</b> For best product performance, swimmer comfort, and crystal clear water. Maintain pH in the range of 7.2 to 7.6. Maintain total alkalinity in the range of 60 to 120 parts per million (ppm). Maintain calcium hardness above 200 ppm. Use a test kit or test strip, or other testing method that measures all these ranges. Use <b>Leslie's Pool Care Products</b> to make adjustments. Follow label directions for each product. Re-entry into treated pools is prohibited above 4 ppm due to risk of bodily harm.	
<b>OPENING YOUR POOL:</b> For best results, see the "WATER BALANCE" section on this package before treatment. Always adjust and maintain pH in the 7.2 to 7.6 range. Follow "SHOCK TREATMENT / SUPERCHLORINATION" directions on this package. Allow 30 minutes for product to disperse. Test free available chlorine residual with a pool test kit. Repeat treatment as needed.	
<b>ROUTINE CHLORINATION:</b> For best results, see "WATER BALANCE" section before treatment. Throughout the pool season, adjust and maintain pH at 7.2-7.6. Check available chlorine with a test kit.	
<b>FOR UNSTABILIZED POOLS:</b> Add 5-7 ounces of this product per 10,000 gallons of pool water daily or as often as needed to maintain the free available chlorine residual at 1-4 ppm. Follow "HOW TO USE" directions on this package. <b>FOR POOLS STABILIZED USING LESLIE'S STABILIZER AND CONDITIONER:</b> Add 3-5 ounces per 10,000 gallons every other day or as often as needed to maintain the free available chlorine residual at 1-4 ppm. Follow "HOW TO USE" directions on this package.	
<b>SHOCK TREATMENT/SUPERCHLORINATION:</b> For best results, see "WATER BALANCE" and "HOW TO USE" sections before treatment. Every 7 days, or as necessary to prevent pool problems, shock treat / super chlorinate the pool by adding 9-18 ounces of this product per 10,000 gallons of water to provide 5 to 10 ppm available chlorine. Additional shock treatments may be required to correct problems which are caused by visible algae, high bathing loads, heavy wind and rainstorms. Additional shock treatments may also be required to correct problems such as unpleasant odors and eye irritation. Check the available chlorine with a suitable test kit.	
<b>ALGAE CONTROL:</b> Follow "SHOCK TREATMENT/SUPERCHLORINATION" directions on this label. Add this product as close as possible to any algae on the sides or bottom of the pool. If necessary, repeat the treatment. To prevent possible staining or bleaching, take the following steps immediately after treatment: Thoroughly clean pool by brushing surface of algae growth, vacuum and cycle through filter. For preventative algae control, use your preferred <b>Leslie's Algacide Product</b> regularly. Follow label directions on the algacide.	
<b>WINTERIZING:</b> For best results, see "WATER BALANCE" section before treatment. Gradually add 27 ounces of this product per 10,000 gallons of pool water that is clear and clean. This provides 15 ppm free available chlorine. Follow "HOW TO USE" directions on this package. Run the filter unit. Granules are completely dissolved. Cover the pool with a pool cover. Prepare the heater, pump and filter components for winterizing by following manufacturer's directions.	
TO DETERMINE YOUR POOL CAPACITY IN U.S. GALLONS, USE THE APPROPRIATE FORMULA BELOW:	
<b>SHAPE OF POOL</b>	<b>GAL. OF WATER (Dimensions in feet)</b>
Rectangular	Length x Width x Average Depth x 7.5
Round	Diameter x Diameter x Average Depth x 5.9
Oval	Maximum Length x Maximum Width x Average Depth x 5.9
Free Form	Surface Area (Sq. Feet) x Average Depth x 7.5

STORAGE & DISPOSAL:	
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING".	
<b>EMERGENCY HANDLING:</b> In case of contamination or decomposition – Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

**SPAS & HOT TUBS**  
**HOW TO USE:** For best results, see "WATER BALANCE" section before treatment. Maintain these conditions for proper operation by frequent testing with a test kit. Do not allow cyanuric acid level to exceed 100 ppm. It is recommended that spas and hot tubs be drained every 30-90 days, more often under heavy use. Consult manufacturer's recommendations concerning the compatibility of chlorine sanitizers with their equipment. Some oils, lotions, fragrances, cleansers, etc., may cause foaming or cloudy water and may react with chlorine sanitizers to reduce their efficacy. If circulation is low, stir water after addition of chlorine or other chemicals.

**WATER BALANCE:** For best product performance, comfort, and crystal clear water. Maintain total alkalinity in the range of 60 to 120 parts per million (ppm). Maintain pH in the range of 7.2 to 7.6. Maintain calcium hardness above 200 ppm. Use a reliable test kit that measures all these ranges. Use **Leslie's Spa Care Products** to make adjustments. Follow label directions for each product. Re-entry into treated spas/hot tubs is prohibited above 5 ppm due to risk of bodily harm.

**OPENING YOUR SPA (FRESHLY FILLED):** For best results, see "WATER BALANCE" section before treatment. Turn on circulation system and ensure that it is operating properly. Add one (1) ounce of this product to provide approximately 10 ppm available chlorine for each 500 gallons of water. Check the free available chlorine (FAC) and if less than 4-5 ppm, repeat as needed.

**ROUTINE CHLORINATION FOR REGULAR USE:** For best results, see "WATER BALANCE" section before treatment. Turn on circulation system and ensure that it is operating properly. Scatter 0.3-0.5 ounces of this product per 500 gallons over the surface of the water. Test for free available chlorine and add additional product if necessary to maintain 3-5 ppm FAC while unit is in use.

**SHOCK TREATMENT:** After each use, shock treat with one (1) ounce of this product to provide approximately 10 ppm available chlorine per 500 gallons of water; to control odors and algae. Repeat as needed.

**EXTENDED NON-USE PERIOD:** For best results, see "WATER BALANCE" section before treatment. During extended non-use periods when the unit is not being used add 14 ounces of this product per 500 gallons twice a week with the circulation system running or as needed to maintain 3-5 ppm free available chlorine.
