

Pleatco AdvancedSPA™

THE NEW STANDARD IN SPA FILTRATION

FINALLY A FILTER CARTRIDGE JUST FOR SPAS!

From the combined hot temperatures and high powered propulsion water flow to the intimate bathing environment, the filtration needs of a spa are very specific and fundamentally different in many ways from pool filtration. Spa and pool replacement filter cartridges have always been clumped together using the same design and materials for both environments. As the industry leader in science and innovation, Pleatco set out to research, develop and successfully create the **first premium performance filter cartridge specifically optimized for spas!**

ADVANCED
FILTRATION FABRIC
**OPTIMIZED
FOR SPAS**

SCIENTIFICALLY
ENGINEERED

PLEATCO ADVANCED POINT BONDED SPA MEDIA®

**HEAVIER FILTRATION FABRIC WITH
FINER FIBERS JUST FOR SPAS.***

UNLIKE ANY OTHER BONDED FILTRATION MEDIA!
COMPLETELY UNIQUE AND EXCLUSIVE TO PLEATCO.

PROVIDES BETTER FLOW,
HIGHER DIRT HOLDING CAPACITY,
GREATER REPEAT PERFORMANCE.

*Compared to competitive trilobal products.

Healthier.
Easier.
Happier.

- ✓ TRAPS MORE BODY OILS, LOTIONS & DIRT
- ✓ GREATER FLOW FOR VIGOROUS JETS
- ✓ EASY TO CLEAN AND MAINTAIN
- ✓ ENJOY SPARKLING CLEAN WATER

Why Pleatco?

Pleatco Advanced Filter Cartridges

Pleatco Free Flow Cores[®]

Engineered ABS for greater flow, higher efficiency and energy savings

Pleatco's unique Free Flow Cores MAXIMIZE filtration performance of the entire cartridge by delivering optimized water flow to a greater surface area of the filtration fabric capturing the most dirt particles while reducing energy consumption and increasing the filter life. Pleatco Cores are highly engineered, incredibly strong molded ABS - not just regular PVC pipe with holes drilled in it.

Pleatco End Caps

Pleatco end-caps are break resistant and are highly resistant to chemicals. With ergonomic handles and have an easily identifiable part numbers our end caps make replacement easy.

Super-bond Bands

Pleatco break-resistant super-bond bands are sealed tight to the filtration fabric with an incredibly strong unique bonding process keeping the pleats sharp and separated for greater flow, superior filtration and longer product life.

Reinforced Center Cores

Our meticulously engineered center cores allow for increased dirt loading and high pressures while providing ultra-solid protection for the structural integrity of the cartridge.

Pleatco Smart Tracker

• A Pleatco Original - An industry first!

Pleatco's Smart Track time stamping technology allows for lifelong product identification, quality tracking and warranty accountability. No other filter cartridge in the world offers this technology designed to provide true customer support and a 'real life' feedback mechanism for us to keep advancing the research and development of our filtration products.

Pleatco Advanced Filtration Fabrics[®]

• Highest fiber count - Holds more dirt!

• Most advanced filtration technology in the industry

Pleatco Advanced SPA is a uniformly bonded 3.2 oz media with the HIGHEST FIBER COUNT per unit area over competitive fabrics. Reduced pore size distribution offers rapid cleaning and superior dirt holding capacity delivering lower pressures and higher flow rates for perfect cleaning results.

Leaders in science and innovation.

Pleatco AdvancedTM POOL & SPA POINT BONDED FILTRATION FABRICS[®]

All PLEATCO ADVANCED Filter Cartridges center around exclusive and unique, uniformly bonded filtration media driving super charged cleaning performance, vastly superior to anything that has come before.

At Pleatco we look well beyond standard filtration fabrics and engage the most advanced manufacturing technology, science and engineering in the world necessary to develop and deliver a truly new industry-leading standard in filtration. Combined with our FREE FLOW CORE[®] technology, Pleatco Advanced cartridges consistently deliver lower pressure and higher flow rates, uses less energy, and provide greater repeat performance.

Pleatco Advanced POOLTM

PLEATCO ADVANCED POOL 4 OZ POINT BONDED FILTRATION FABRIC

contains more fibers per unit area offering far greater volume dirt holding capacity than other filtration fabrics. With reduced pore size distribution the fabric provides impressive turbidity reduction via unique cross filtration flow, easily and efficiently capturing dirt particles to achieve a deeper level of cleanliness and clarity than ever before. Due to uniformly placed weld spots, our unique Pleatco Point bonded fabrics are strong and robust, and return to a high state of original performance after cleaning, meaning greater usability, longer cleaning cycles, and less service time.

PLEATCO ADVANCED
ANTIMICROBIAL
POINT BONDED
FABRIC[®]

ENGINEERED FOR POOLS.

MORE FIBERS & GREATER DIRT HOLDING CAPACITY.
RETURNS TO HIGHER STATE OF ORIGINAL
PERFORMANCE AFTER CLEANING!

*Compared to competitive trilobal products.

Pleatco Advanced SPATM

PLEATCO ADVANCED SPA 3.2 OZ POINT BONDED FILTRATION FABRIC

is meticulously constructed with a high volume of incredibly fine fiber strands providing better flow, higher dirt holding capacity and longer performance life **OPTIMIZED FOR SPAS**. Due to the finer fibers and high-tech construction technique, this new fabric has a larger cumulative wet surface area compared to competitive trilobal products. Our new Spa fabric allows the release of greater volumes of dirt allowing spa owners to clean the new filters simply and effectively, resulting in better flow, less maintenance and longer cycle times between cleaning.

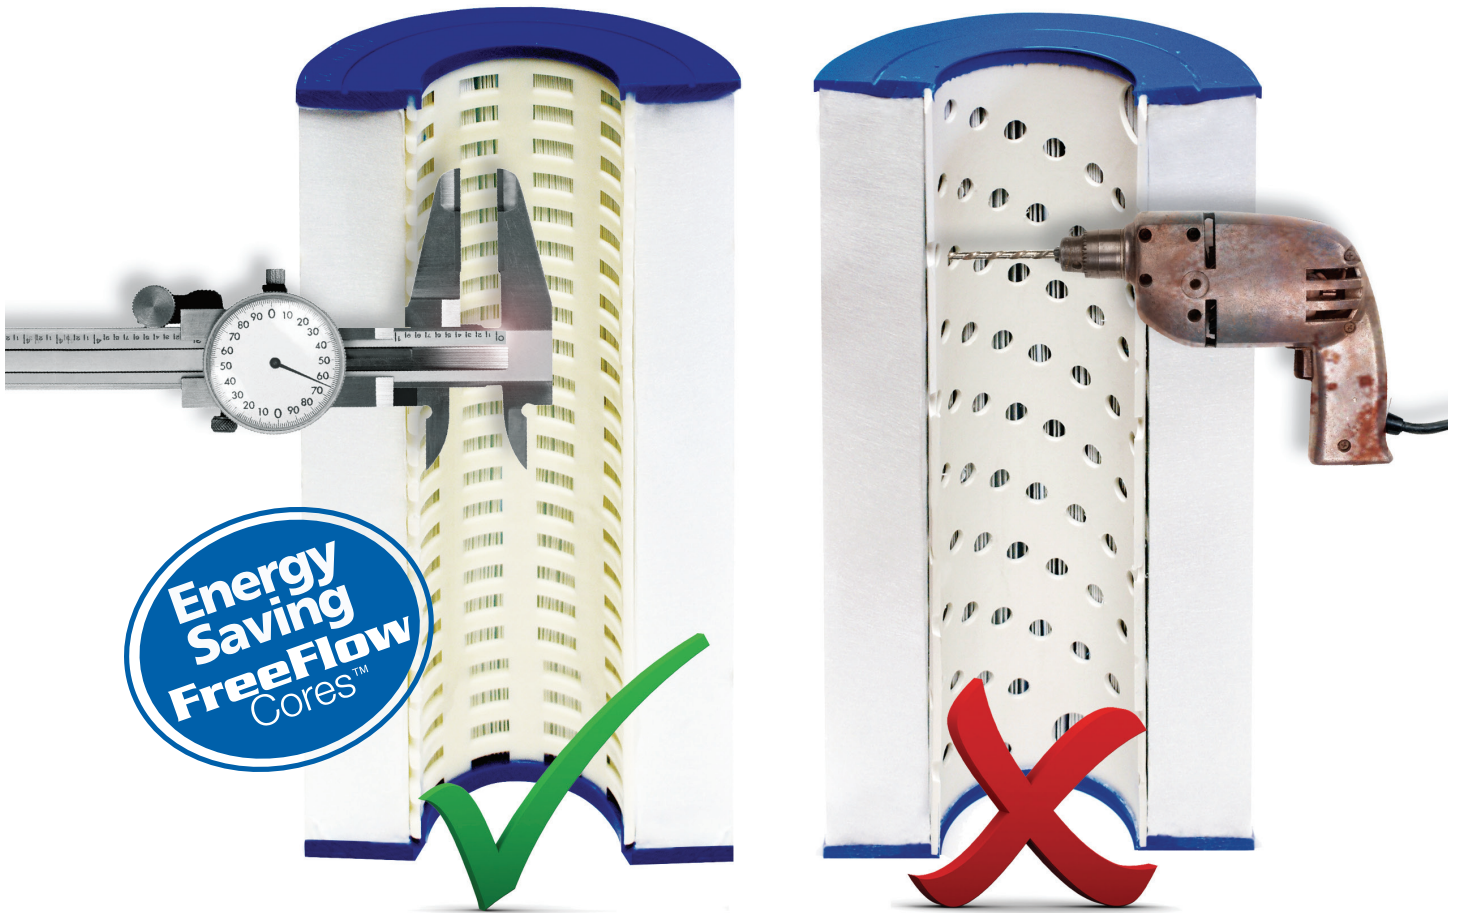

OPTIMIZED FOR SPAS.

HEAVY FABRIC WITH FINER FIBERS PROVIDES
BETTER FLOW, TRAPS MORE BODY OILS & DIRTS,
AND GREATER JET PERFORMANCE.

*Compared to competitive trilobal products.

**UNLIKE ANY OTHER BONDED FILTRATION FABRICS!
100% UNIQUE AND EXCLUSIVE TO PLEATCO.**

A CORE DECISION.

Pleatco Advanced™
THE NEW STANDARD IN POOL & SPA FILTRATION
PRECISION ENGINEERED

Others
Old School

Nobody talks about cores. Why? Because all of our competitors use PVC pipe with holes drilled in them. Take a few seconds and look inside any of our competitor's cartridges and then look inside ours... you'll see the difference immediately. It's obvious. Pleatco's cores allow for the even flow of water through the entire cartridge which increases filtration, uses all the Pleatco Advanced Point Bonded Filtration Fabric, and makes it easier for the pump to move water through the entire cartridge. Pleatco's Free Flow Cores® are designed to be efficient, robust and save energy.

Quality matters. Choose wisely.™
