

ABOVEGROUND

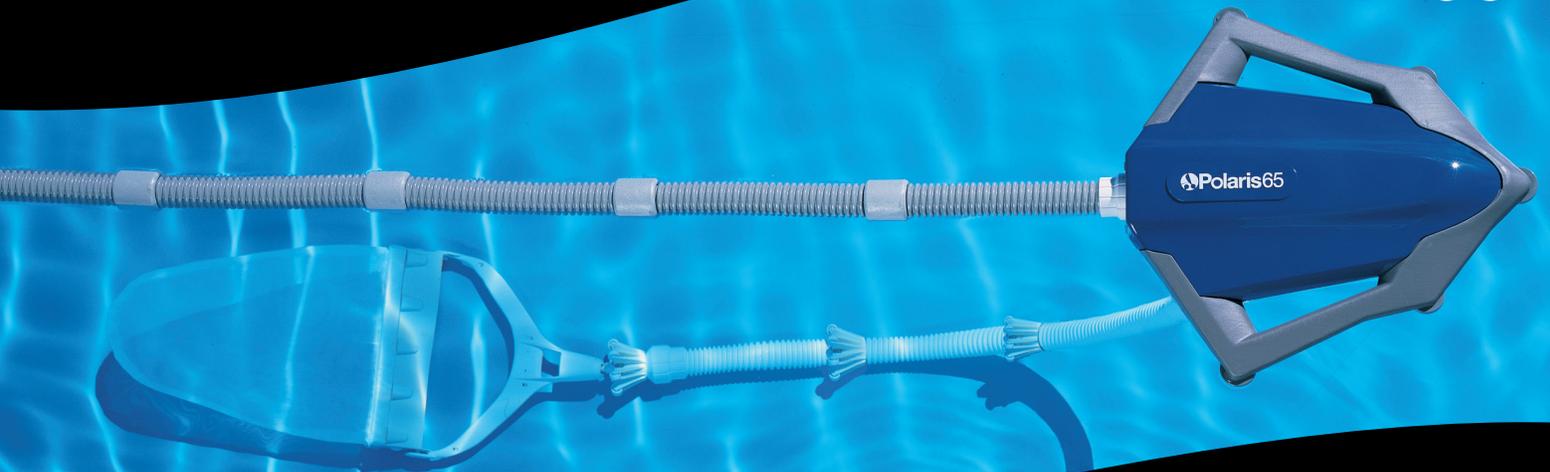

Pool Cleaners

Turbo Turtle®

For those who've figured out it's more fun to swim in a pool than clean it.

65

Polaris® 65 & Turbo Turtle™

The Polaris Vac-Sweep® 65 and Turbo Turtle are designed for all aboveground pools up to 5 feet deep, even those with an uneven bottom.

Pressure Cleaning Benefits

Provides a Healthier pool

Independent operation keeps the skimmer free to remove surface debris and contaminants.

Reduces Maintenance

Captures debris before it reaches the pump basket and filter. Reduces filter cleaning up to 80% per year, prolonging the life of your filter.

Maximizes Circulation and Heating

Enhances your swimming experience, providing a clearer body of water by returning clean, filtered water throughout all areas of the pool.

FEATURES

- » Operates with pumps and filtration systems normally found on aboveground pools.
- » Vacuums the bottom and sweeps the sides in 3 hours or less.
- » Patented jet sweep assembly blows water against the pool floor to loosen debris in hard-to-reach places and then sweeps it into an easy-to-remove filter bag.
- » Powered by the pressure of clean water returning to your pool, the cleaner leaves both the filter and skimmer free to eliminate contaminants.
- » Unique filter bag removes debris before it reaches your pump basket or filter, prolonging the life of your filtration system.
- » Quick and easy installation.

The Polaris Turbo Turtle and Polaris Vac-Sweep 65 are designed for the following types of debris:
