Monocular Vision Obstacle Avoidance

Scuba N3's front-mounted AI camera continuously scans ahead, paired with advanced dToF sensors, identifying common pool obstacles before contact occurs. This intelligent navigation prevents the cleaner from getting stuck or jammed, ensuring uninterrupted cleaning cycles.

Aiper AI Vision Cleaning

Scuba N3's onboard AI camera intelligently identifies debris like leaves, stones, and pebbles, adjusting its path in real-time to target and remove debris quickly. Instead of sweeping aimlessly, it focuses its energy on where cleaning is needed most.

WaveLine™ Technology

Scrub the waterline horizontally—mimics hand scrubbing to clean one of the most difficult zones in your pool with ease and leave your pool's waterline spotless.

Wireless Charging Dock

No more plugging in—Scuba N3 comes with a wireless charging dock. Just drop it in place, and it starts charging automatically. Simpler, safer, and effortlessly convenient.

Auto-Docking Waterline

Simple, clean, and efficient—just walk over and lift it out when it's finished.
