

# SODA ASH

Adjuster

## For Raising pH Levels in Swimming Pools

- Contains no additives
- 100% pure

Keep Out of Reach of Children

**WARNING: HARMFUL IF SWALLOWED. EYE IRRITANT.**

See First Aid and Carefully Read Additional Precautions on Back Panel

Product Representation

LPM 14736 – Net Wt. 30 Lbs. (13.6 kg)

### PRECAUTIONARY STATEMENTS

**WARNING:** Avoid contact with eyes and skin. Wear rubber gloves and safety glasses. Keep out of reach of children. Do not mix with other chemicals.  
Contains: Sodium Carbonate.

#### FIRST AID

##### IF INHALED:

- If dust from the material is inhaled, remove the affected person immediately to fresh air.
- Call a physician if symptoms develop or persist.

##### IF ON SKIN:

- Brush away excess of dry material.
- Flush skin with water.
- Obtain medical attention if irritation persists.

##### IF IN EYES:

- Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- If eye irritation persists, get medical advice/attention.

##### IF SWALLOWED:

- Do not induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.
- Rinse mouth with water, then drink one or two glasses of water.
- Never give anything by mouth if victim is unconscious, or is convulsing.

#### DIRECTIONS FOR USE

Read entire label and use in accordance with precautionary statements and directions.

#### HOW TO USE:

1. Test the pH of the pool water with a reliable test kit.
2. If pH is below 7.2, add **Leslie's Soda Ash** at the rate of 1 lb. per 10,000 gallons.
3. Dissolve by adding **Leslie's Soda Ash** to a bucket of cold water. Mix thoroughly and pour into pool while walking around perimeter. **Leslie's Soda Ash** may also be added directly to the pool water.

4. Retest pH every 4 hours and add additional **Leslie's Soda Ash** until the pH is in the acceptable range 7.2 to 7.8 (ideal pH is 7.4-7.6).

**NOTE:** Do not add more than 4 lbs. of **Leslie's Soda Ash** per 10,000 gallons at a time. If the Total Alkalinity and pH are very low (below 7.2 pH or Total Alkalinity below 60 ppm), have your water tested for copper and iron before proceeding. Do not add **Leslie's Soda Ash** the same day as **Leslie's Hardness Plus**.

**PACKAGED FOR:**  
Leslie's Poolmart, Inc.  
2005 E. Indian School Rd.  
Phoenix, AZ 85016
