CONNECT ONE END OF YOUR HOSE TO THE FILTER WASTE OUTLET

CONNECT THE OTHER END TO YOUR ECO

YOUR ECO RECYCLING POOL WATER

HOSE REQUIREMENTS: The Eco Pool Drain Waste Water Saver is designed to operate under pressure. Eco kits #400 & #420 include our heavy duty hose designed to operate safely at up to 20 PSI. Item #200 does not include a hose. Inferior hoses may burst and result in property damage, injury or death. If you did not purchase our kit be sure to only use a high quality hose rated at 20 PSI or higher. Some vacuum hoses may be suitable for connecting the Eco Pool Drain Waste Water Saver to your filter and Eco Pool Drain Waste Water Saver. Confirm with the manufacturer that your vacuum hose can safely handle the pressure beforehand.

OPERATION, PROPER USE, REPLACEMENT CYCLE: Move the Eco Pool Drain Waste Water Saver to a different location with each use. DO NOT over saturate any areas. Excessive amounts of water may damage or kill your lawn, flowers, shrubs, plantings and/or trees. Attention should be given to how your vegetation is responding to each use. Immediately stop use of the Eco Pool Drain Waste Water Saver if negative impacts are observed to your property. The Eco Pool Drain Waste Water Saver Operates Under High Pressure. Failure to follow these instructions may result in property damage, serious injury or death. Use only with sand or cartridge swimming pool filtration systems. Avoid any contact with waste water and mist. Stand clear of hose & Saver when in use. Position top side facing sky. Do not operate above 20 PSI. Use ONLY with properly balanced pool water! Change location with each use. Poorly balanced pool water may severely damage and/or kill your lawn & vegetation. This product is NOT a garden watering device. Do not allow anyone, pets or animals near the area while the Eco Pool Drain Waste Water Saver is in use. Potential trip hazard. Put away when not in use. Do not use where water may come in contact with an electrical source. Incorrect installation and/or improper use may result in product failure, property damage, injury and/or death. This product is intended for above-ground & in-ground residential swimming pool applications only. Do NOT connect to a high-pressure systems such as a municipal water main. Confirm that ALL clamps have been securely tightened and that the Eco Pool Drain Waste Water Saver & hose are in good condition before each use. Replace annually or at the first sign of wear or if not operating properly. This is NOT a toy. This product should only be used by adults after reading and fully understanding the box and enclosed manual. DO NOT DEVIATE FROM THESE INSTRUCTIONS OR THE INCLUDED MANUALS.

PREVENTATIVE MAINTENANCE: An increase in the Saver's water height is an indicator of blocked water escape openings or possible problems with your filter. Make sure your filter is operating properly. Check the Eco Pool Drain Waste Water Saver for debris that may have collected inside the unit and may now be blocking the water outlets. The water outlets must be routinely cleared to keep the Eco Pool Drain Waste Water Saver operating safely. Failure to do so may result in product failure, property damage, injury or death. Disconnect the device prior to starting maintenance. The openings may be cleared with a tooth pick or similar object and then flushed / rinsed clear with a garden hose. Do not conduct maintenance without safety glasses or while the Eco is in operation.

REGULATORY COMPLIANCE: The Eco Pool Drain Waste Water Saver is designed to comply with most State & Federal pool waste water disposal regulations. It may or may not do so in your area. Check with your local governmental agency.

WARNING – Pump and Filter System Operate Under High Pressure. Failure to follow these instructions & the enclosed manuals may result in property damage, serious injury and/or death. Do not operate above 20 PSI (Pounds per Square Inch).
