QUIKPURE3™

OZONE OXIDATION SYSTEM

THE OZONE DOES IT

Contaminates called combined chlorines or chloramines form in every pool to create that all-too-recognizable and harsh chlorine smell. It is actually these chloramines, not chlorine, that creates that unpleasant smell. QuikPure3 instantly breaks apart and destroys the chloramines by producing ozone, the safest yet strongest oxidizer available. And when its job is done, ozone reverts back to oxygen. Leaving nothing but clear, clean water and a healthier family environment.

SAVES YOU MONEY

Up to 70% of the chlorine or bromine (sanitizers) applied to a pool is used to oxidize or "shock" the water free of chloramines. With QuikPure3, chlorine and bromine use is dramatically lowered. That means almost no shocking your pool, and up to a 70% savings on sanitizer usage and costs may be realized. Costs of pH balancing, algaecides, clarifiers, and other filtering aids will also be reduced. Even more savings!

70% SAVINGS

SAVES TIME

Since QuikPure3 works automatically each time the pool pump is operating, there is nothing for you to do but enjoy! Less time is needed for water balancing and shocking. Less time is needed to backwash or clean filters because the ozone produced by QuikPure3 also breaks down clogging oils and greases. Less time is needed for pool maintenance because scale and tile-line build-up are greatly reduced. And less time working means more time for fun!

ENJOY THE FEEL

When activated, QuikPure3 continuously eliminates chloramines created within the pool area. The resulting high quality water often feels silky, smooth, and soft to the skin and hair. Additional benefits include:

- **NO** Red, Sore Eyes
- **NO** Harsh Chlorine Smell
- **NO** Discolored Hair or Bathing Suits
- **NO** Irritated Skin

QUIKPURE3 FEATURES!

- Safety Shut-Off Feature
- Visual Unit On Indicator
- Dual Voltage – 110v and/or 220v
- Large 25,000 Gallon Single Bulb Capacity Unit
- Larger 50,000 Gallon Dual Bulb Capacity Unit
- Convenient Plug-In U.V. Bulb
- Simple Valveless Output Controller
- Security Built-In Check Valve
- Easy Installation
- No Periodic Maintenance Required
- 2 Year Limited Warranty
- ETL Listed, conforms to all UL STD 1563
- Certified to CAN/CSA STD C22.2 No 218.1-M89

ENJOY YOUR POOL. GO AHEAD. YOU DESERVE IT!
