FOR IN-GROUND AND ABOVEGROUND
POOLS WITH CARTRIDGE FILTERS

The Mineral Pool Sanitizer

The Low Chlorine Alternative*

- Reduced potential for stinging eyes, skin irritation and unpleasant odors
- Reduces chlorine use to just 0.5ppm
- Destroys bacteria
- Easily installs in minutes
- Nature² CF lasts 4 months
- Compatible with most pool maintenance products.**

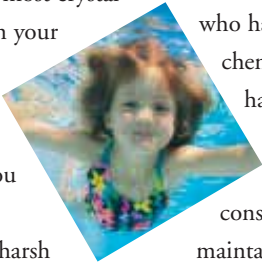

The Nature²
CF Sanitizer

Reduce chlorine use to just 0.5 ppm in your in-ground or aboveground pool!

With Nature² CF you can experience a revolutionary approach to sanitizing your pool that gives you the clearest water imaginable. The patented Nature² System* uses minerals to destroy bacteria. Just drop the Nature² CF into your cartridge filter, activate it and let it do the rest for four months. Then, just sit back and start enjoying the most crystal clear pool water in your neighborhood.

Using a Nature² sanitizer means you can significantly reduce the use of harsh chemicals like chlorine in your pool. And continuous use of Nature² in your pool means a

more consistent pH balance. Nature² reduces the potential for stinging eyes, skin irritation and unpleasant odors.

Maintaining a pool with Nature² is much simpler than using traditional chemical treatments. The Nature² sanitizer works automatically and requires no electricity. Pool owners who have switched from chemical programs happily report that they are now spending considerably less time maintaining their pools with Nature². This means more time for you to enjoy your pool and its fresh, crystal clear water.

How does Nature² CF work?

Water flows through the Nature² CF sanitizer which contains a layer of minerals which destroys bacteria. The sanitizer contains no moving parts and is unaffected by heavy use, hot weather and water temperature. It is compatible with most pool maintenance products and will not damage your pool equipment.** Nature² CF provides the ultimate in water sanitation for your pool for four months.

Nature² CF easily installs in minutes.

Nature² CF is the most convenient way to immediately improve the quality of your pool water. If you have an in-ground or aboveground pool with a cartridge filter, you can just drop the Nature² CF into the core of that filter. After you activate the Nature² CF you can start enjoying pool water clarity you can see and feel. Nature² CF will sanitize pools up to 25,000 gallons.
