SLIDE SERIES

THE NEW SLIDE SERIES IS THE PERFECT SOLUTION FOR
SPA SERVICE PROFESSIONALS!

6000 SLIDE SERIES

Our most popular control system features a mid-size control box and is available in both solid state and electro-mechanical units.

NEW!

4000 SLIDE SERIES

The New "L" shaped heater allows direct mounting above the pump and utilizes the 6000 series control box, and is available in both solid state and electro-mechanical units.

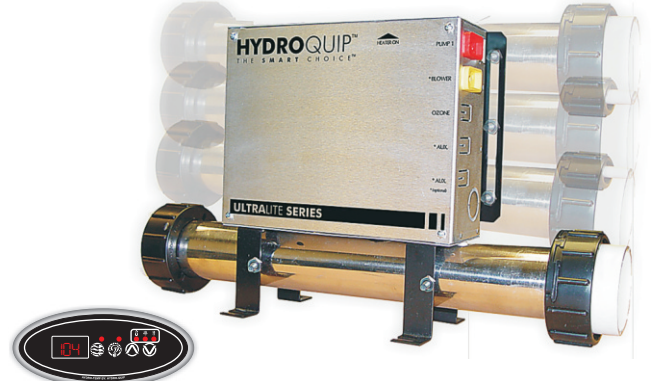

The **SLIDE** Series Control systems were designed for the spa and service professional. With just a few basic control boxes and two heaters, you will be able to retro-fit practically any spa ever made! Mount the heater where you need it - anywhere along the back of the control box, underneath, or remote! You can offer the maximum range of controls while stocking a minimum number of different components!

9000 SLIDE SERIES

This full sized, deluxe solid state control system is fully loaded with the most features we have to offer.

7000 SLIDE SERIES

Our economical control system features just the basics in a compact configuration. Available in both solid state and electro-mechanical units.

CS500 Series Air Control System

Compact - Classic - Convenient: Three words that come to mind when describing the satisfaction of installing and/or owning a CS500T series control from Hydro-Quip. From the classic electro-mechanical reliability of the components to the corrosion-proof ABS heater housing. No other manufacturer provides the same level of time and money saving features.

Available with or without time clock, right or left outlet also available.

ES8000 Series Equipment System

The Hydro-Quip solid-state ES8000 series equipment system represents the finest in outdoor systems on the market today. No other manufacturer's outdoor equipment systems offer such an extensive array of available options or provides the same level of time and money saving features. Perfect for all in ground spas, swim spas, or other remote outdoor equipment applications.

Available in both solid state and electro-mechanical systems.

HEATMAX RHS Series

The Hydro-Quip HEATMAX RHS series heater is our basic "heater in a box" unit. When all you need is heat, this is the most practical and user friendly unit in the industry.

5.5kW OR 11kW for new and existing applications where a full 2" free standing heater is needed.

SILENT AIRE Blower Series

Hydro-Quip introduces our *SILENT AIRE* blower series. This innovative, compact and sleek design make this the most practical blower on the market today. With its quiet operation and universal cord configurations, the *SILENT AIRE* blower was engineered to perform above all the rest!

Universal RITE-FIT Heater Assembly

Hydro-Quip introduces our new universal *RITE FIT* heater assembly. This innovative design allows you to use the *RITE FIT* heater to replace many on the market today. Save on inventory and save space, no need to carry many different models when you only need one, the *RITE FIT* universal heater!
