

Prowler[®] 830 Robotic Inground Pool Cleaner

by Pentair Water Pool and Spa[®]

The ultimate in cleaning performance and convenience

The Prowler[®] 830 robotic cleaner provides superior power and eco-friendly cleaning to keep your inground pool spotless and inviting. Its advanced design scrubs, vacuums and filters, cleaning most pools (including the waterline) in just two and a half hours. The wireless remote provides easy control of Prowler 830 for quick spot cleaning. Plus, the weekly timer allows you to schedule regular cleanings—even when you're not at home.

Prowler 830 is an environmental choice because its internal filtration system cleans water as it circulates chemicals more thoroughly throughout the pool—reducing your chemical requirements while improving water clarity. Best of all, its low-voltage operation reduces energy use—it can clean most pools for as little as 15 cents a cleaning.

Totally independent of your pool circulation system, the Prowler 830 gives you plug-in convenience. No installation, costly-to-operate booster pump, or cumbersome hoses are required. Just plug it in, place it in your pool and Prowler 830 does the rest.

Other features include:

- Auto-reverse feature helps prevent hang-ups in corners and by steps and ladders for uninterrupted performance.
- Remote control functions allow you to override automatic cleaning modes to perform quick spot clean-ups.
- Integrated filter reduces run time of your primary filtration system, saving on pump energy costs and minimizing wear and tear.
- Includes convenient caddy for easy handling and storage.

An Eco Select[™] Brand Product

As part of the Eco Select[™] brand, the Kreepy Krauly[®] Prowler 830 robotic cleaner is an eco-friendly, energy-saving equipment choice from Pentair Water Pool and Spa[®].

The brand of choice for more than **3 million** pool owners worldwide.

Prowler[®] 830

Robotic Inground Pool Cleaner

Superior swivel design helps prevent cable tangling and keeps Prowler 830 free to move throughout your entire pool

Built-in weekly timer keeps Prowler 830 working when you're away

Powered tracks keep unit on the move for the most thorough clean possible—even up slopes and walls

Large self-contained inner cartridge collects dirt and debris (underneath)

Powerful cleaning with hassle-free convenience

Prowler[®] 830 robotic cleaner gives you remote control convenience and automatic setting options to keep your pool spotless and inviting. It provides optimal cleaning coverage of your pool's floor and walls, using a powerful combination of brushing, scrubbing, vacuuming and filtering. The Prowler 830 gets the whole job done in just two and a half hours... automatically.

Product features:

- Weekly timer allows you to set cleanings to fit your schedule.
- Plug-in convenience; requires no installation, no booster pump and no hoses.
- Vacuums all types of debris and helps remove algae from water.
- Easy to maintain; filter cartridge is quick and simple to clean.

- Full cartridge indicator lets you know when Prowler 830 needs attending.
- Cleaner and key components are certified to UL standards for safety by ETL.
- Two-year limited warranty. See warranty for details.
