

- CLEANS ENTIRE POOL
- ALWAYS SWIM READY
- 99% CLEANING GUARANTEED
- ENHANCED CIRCULATION
- SAVES ON CHEMICAL & ENERGY COSTS
- NO ROUTINE MAINTENANCE
 - LIMITED LIFETIME WARRANTY ON NOZZLES
- INFINITE POSITION NOZZLE WITH NO MOVING PARTS

MDX® & SDX DRAINS ARE COMPLIANT WITH THE VIRGINIA GRAEME BAKER ACT 2008.

ALL YOU HAVE TO DO IS PLAY

When it comes to spending your free time there are more important things to do than tending to your swimming pool. Thanks to PV3®, the automatic in-floor pool cleaning and circulation system, your pool can be built to clean itself while you relax. Built right into the pool shell, PV3 is engineered to clean your entire pool, including floors, steps, benches, even spas. When not operating, PV3 disappears back into the pool floor, making it virtually invisible. There are no vacuum hoses left floating in the pool. All that's left is a sparkling clean pool that's ready to enjoy.

PV3 is custom-designed for your unique pool shape. It is so effective that it will clean 99% of your entire pool, guaranteed, as well as significantly reduce heating and chemical costs for the life of your pool.

HOW IT WORKS:

1. Pop-up nozzles are placed in floors, steps, benches and even spas to clean the entire pool.*
2. Pop-up nozzles work together to sweep debris to the pool's main drain and skimmer area.
3. An optional **MDX^{2®} Drain with anti-entrapment technology removes large debris.
4. An optional debris canister collects the large debris for convenient disposal.*
5. The PV3 automatic watervalue functions as the brain of the system and directs a powerful flow of water to each set of cleaning nozzles. The low-profile watervalue requires no routine maintenance, and is also 100% pressure safe.

*MDX² Debris containment canister and nozzles in steps, benches, swimouts, and spa are optional.
 **WARNING: MDX² and SDX must be installed in accordance with Paramount's written instruction manual, and in conformity with applicable Federal, State, Local and Swimming pool industry building and safety codes.

**FROM THE WORLD'S #1 IN-FLOOR
CLEANING SYSTEMS COMPANY**

PV3 SAVES CHEMICALS, ENERGY AND MONEY WITH IMPROVED CIRCULATION.

Not only is PV3® a powerful pool cleaning system, but it's also an advanced circulation system. Ordinary pools circulate water near the surface of the pool, where chemicals and heat are quickly lost into the atmosphere. This often leads to wasted chemicals, wasted heat energy and several poorly circulated algae-prone areas throughout your pool.

PV3 improves the poor circulation found in ordinary pools. Using rotating cleaning jets strategically placed in the pool floor, steps and benches, PV3 evenly circulates water throughout every square inch of your pool. This improved circulation has been proven to create cleaner, healthier more comfortable pool water while reducing the loss of chemicals and heating energy to the atmosphere. This means PV3 will save you money while it delivers healthier water.

Independent studies have proven that you can expect significant savings in chemical costs and heating costs for the life of your pool.

CIRCULATION BENEFITS:

- ENJOY CLEANER, HEALTHIER WATER.
- NO POORLY-CIRCULATED ALGAE-PRONE AREAS.
- ELIMINATES COLD SPOTS FOR MORE COMFORTABLE SWIMMING.
- SAVES CHEMICALS FOR THE LIFE OF THE POOL.
- SAVES ENERGY COSTS FOR THE LIFE OF THE POOL.
- BETTER FOR THE ENVIRONMENT.
- INDEPENDENTLY PROVEN TO SAVE YOU MONEY FOR THE LIFE OF YOUR POOL.
